## **To Parents, Carers and Community Members,**

It is week 6 already! The term is flying by.

Thank you to all the community members who were able to attend the school Remembrance Day Ceremony and Assembly, last week. Our students showcased their amazing things that they have been learning and represented our school with great pride.

All our students have been busy getting ready for our end of year assembly. Props and costumes are being made, lines rehearsed. It is a wonderfully vibrant time here at Ivanhoe.

As we come to the end of the year Secondary students have been completing some of their final assessment tasks for the year. They have worked very diligently this year.

## OPINIONS FROM THE YEAR 9 ENGLISH CLASS

### Kings of the Jungle

Cats are better than dogs because they are cute and fluffy and leave fur everywhere. A cat is better than dogs because the dogs smell and get dirty, cats like to be clean. Dogs are noisy, barking all the time. Cats are quiet, they meow which is cute. Cats have big beautiful eyes and they are funny, they make weird faces and jump around silly like. You do not need to be around all the time, you can be gone for a while and they will still be affectionate. Dogs chew everything! Dogs always want to play which is annoying. Cats do not need to play all the time.

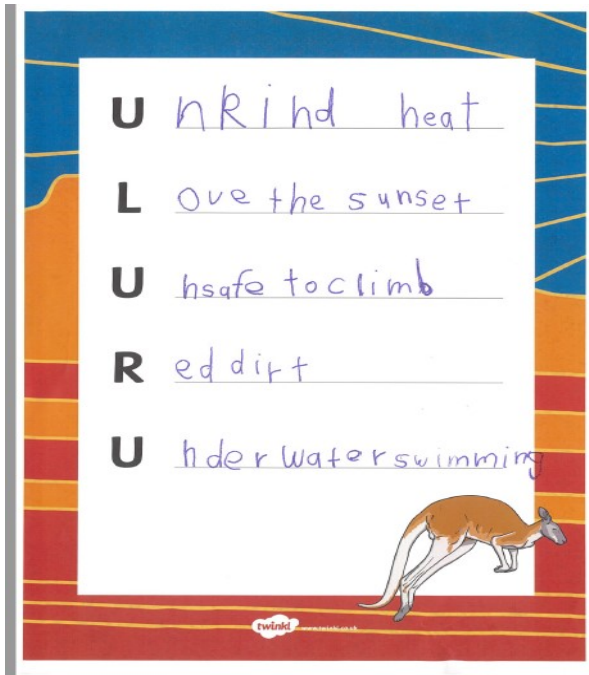

## The Way to Coober Pedy

We went to Coober Pedy on the way to Uluru. We went in the opal mine. Miner dummies were digging holes with pick axes. We saw opals in the mine walls, they were shine and colourful. The walls were smooth and rough. The smooth walls were machine dug and the rough walls were hand dug.

There was an underground house had everything a normal house has except windows. We slept at an underground hotel, it was quite good because I touched the roof and dust came down.

## 31 Hours on a Bus

Everyone should go on a long bus ride, it is lots of fun. There is heaps of time to watch all the movies you want. No-one will walk in front of the TV and stop you from seeing the movie. The chairs move back and you can relaxed when you enjoy the show. You can sleep in the bus, it will rock you to sleep. When you take a long bus ride you get there quicker.

Long bus rides are the best way to travel.

## **Uluru Adventure**

The adventure started on the 26<sup>th</sup> October 2019. We left on a big coach to head to our first stop which was 2 hours away. It was pretty relaxing in the coach, John our driver was telling us about his adventures. But I did not like the long drive. We stopped at Balranald to stretch our legs and go to the toilet and the café to have a snack. After that we had to hit the road to our next stop Spear Creek to rest for the night. In the morning John told us that we are going to see a US Navy base at Woorarra we took pictures with rockets and missiles. After that we hit the road again to Coober Pedy known for its opal rocks and underground houses it was really cool we went to see an underground church that smelled like chlorine after that we went to the museum to see opals and how diggers dig for opals. We took a rest at Coober Pedy in the underground houses it was really fun because it was my first time sleeping underground. We ate cereals and yogurt in the morning before hitting the road again to Uluru. When we were on the road, John suggested that we should sing. A lot of the primary students were singing, which was very sweet, with their cracked voices. Even Mrs Johnston and Mrs Ostler were singing "mama mia" it was very entertaining. Before reaching Uluru we had to cross a boarder, they only checked if we had any fruit. After the inspection, we were on the road to Uluru which was really exciting....then finally we reached the famous rock.

### **Fun facts about Uluru**

- 1. Uluru is the aboriginal name for this rock. It is also called Ayers Rock, after Sir Henry Ayers. Explorer William Gosse gave it this name when he discovered it in 1873.**
- 2. The rock was originally at the bottom of an ocean.**
- 3. Uluru is covered with crevices, caves and valleys.**
- 4. Uluru is a monolith, which means one really big stones or mountain.**
- 5. Uluru is probably Australia's best-known natural landmark.**
